

Cellar Tianna Negre

The labels of our Ses Nines wines depict our mother as a child skipping rope on the main square of her hometown, Consell; a village with a winemaking tradition in the area of the Raiguer. She inherited a small 35 year old vineyard in the town of Consell, planted exclusively with the autochthonous Manto Negro grapes, grown in the traditional "politxo" style (on regularly spaced wooden poles).

This cherished plot of land is the source of our dream to start a winery and make our own wines. The idea was gaining strength and in 2004 the project to build Celler Tianna Negre began.

Our objective is to create special wines that would convey the essence of our island, and simultaneously show a renewed vision for the future, while combining Architecture, Nature, Character and quality.

UVA is proud to present you the following selected wines from Celler Tianna Negre:

Ses Nines
