

Fattoria di Luiano

Luiano is an ancient fort, whose origins lie in the late middle ages and land spans 40 hectares in the northern region of the Chianti Classico. On its fertile soil, rich with natural resources, throughout the last centuries a great tradition of vine growing was founded. Today Luiano is a farm entirely dedicated to the growth of grapes and winemaking. The Palombo Family, who has been running the winery for the past three generations, has recently renovated Luiano's vineyards and structures in an effort to achieve excellence within today's modern wine world.

UVA is proud to present you these selected wines from Fattoria di Luiano:
